

VACANCY: SENIOR ML/CV ENGINEER (KYIV OFFICE)

French AI start-up **PRESTE** is looking for a **Senior ML/CV Engineer (Kyiv office)**

Job Description

- **Mission overview:**

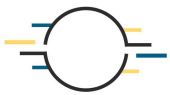

The Senior ML Engineer will accompany **PRESTE** in AI projects with specific industrial needs in Computer Vision. This collaboration can encompass, upon qualifications and availability, several projects such as: medical imaging (image segmentation), image classification, object tracking & detection. The scope of work will range from simple expertise in improving CV model accuracy to full end-to-end implementation of a CV project (data prep to deployment).

- **Main activities (depending on projects):**

- **Modelization/Evaluation/Run:** elaborate, test & validate CV models in close coordination with the client. Improve models to reach accuracy targets
- **Data Preparation:** check data readiness, build data pipelines, clean and transform data, coordinate labelling
- **Integration & Deployment:** define an optimized target architecture (cloud vs on-site). Integrate models to live conditions & hardware. Test. Deploy. Maintain
- **People Management:** Supervise Junior Data Scientists/ML Engineers

- **Key competencies:**

- **Must-have:**
 - Practical Experience in CV for industrial projects ≥ 3 years
 - Technical stack: Python ML/DL/CV ecosystem. Cloud model training (preferably AWS). Cloud integration
 - Participation in end-to-end AI/IT projects (data prep to deployment)
 - Languages: English (B2), Ukrainian (C2) & Russian (C2)
- **A definite plus (for specific projects):**
 - Experience in Medical Imaging
 - Experience with Agile methodology and continuous integration

What we offer

- **Wide range of projects** in various industries (Health, Industry 4.0, and much more)
- **Tailored career/skill development** (incl. advisory role & team management)
- **International work environment** (standards, managers and clients)
- **Work in Unit.City**, at the heart of Ukraine talent & technology pool

Start date:

- **January 2020**

How to apply

Please highlight in English how you believe your profile can match our needs in a very short introduction (one paragraph) and a CV to be sent to jobs@preste.ai with email title: "Senior CV / ML Engineer (Kyiv office)".

The recruitment process will follow 2 rounds of interviews: 1) shortlisting 2) final selection.

PRESTE in a nutshell:

- **Our activity:**
 - **PRESTE** is an Artificial Intelligence outsourcing company based in Paris and in Kyiv, with main business expertise in Banking, Health and Industry 4.0.
 - We provide AI technologies for industrial needs, such as: computer vision, NLP, classification, prediction, dynamic recommendations.
- **Our team:**
 - **PRESTE** team is French and Ukrainian.
 - We are not the "usual" outsourcing company: our added value lies in the quality of the skills and projects we manage, not in their quantity.
 - We are a start-up (2019): our team is still small (<5 permanent) but rapidly growing. We have ambitious plans and the heart to achieve them!
